KINGQUAD 400FSi / FEATURES

ENGINE FEATURES

- // The KingQuad 400FSi's fuel-injected 376 cc 4-stroke, 4-valve engine produces efficient power and drivability.
- // Suzuki's class-leading fuel injection smooths power output, especially in the mid-to-high range, and provides excellent cold starting. The system uses 3-D maps for optimum ignition, creating responsive yet environmentally compliant performance.
- // Suzuki Advanced Cooling System (SACS) uses an oil cooler and thermostat-controlled cooling fan to shed engine heat during hard work or cargo hauling.
- // Push-button electric starting has a start-in-gear function—when the rear brake is applied—allowing starting without shifting to neutral (as conditions permit).
- // The Engine Control Unit (ECU) has slip control logic, which adjusts fuel injector duration and timing to improve drivability and grip in loose/slippery conditions.
- // Highly efficient iridium spark plug contributes to better combustion, cleaner emissions and longer plug life. Engine starting under low temperature is also improved.
- // Pulsed-secondary AIR-injection (PAIR) system and catalyst-equipped exhaust system help the ATV meet emission standards while maintaining a high level of performance (the KingQuad 400FSi is eligible for California red-sticker registration).

TRANSMISSION FEATURES

- // 5-speed transmission with semi-automatic clutch with reverse allows the rider to select the ideal gear for maximum traction and fuel efficiency.
- // Select 2WD or 4WD with the flip of a handlebar-mounted lever. The shaft drive system is reliable and durable and is nearly maintenance-free.
- // Torque-sensing limited-slip front differential provides maximum traction and light steering when in 4WD mode.
- // High/low selectable sub-transmission provides wide-ranging versatility.
- // Automotive gate-type gearshift lever lets you conveniently choose high or low range, neutral or reverse.
- // The ECU has a Reverse Mode that monitors vehicle speed so higher engine RPM can be used when getting out of mud or loose soil.

CHASSIS FEATURES

- // Sporty bodywork features sharply angled, high-clearance fenders.
- // Suzuki's exclusive T-shaped seat delivers rider mobility during sport riding or tackling difficult terrain. It's also plush for extended riding comfort.
- // Overall length is under 82 inches (208 cm), so the KingQuad fits into a 6.5-foot truck bed for easy transportation.
- // Independent front A-arm suspension offers smooth performance and remarkable ground clearance with 6.7 inches (170.1 mm) of wheel travel.
- // A swing-arm rear suspension with 6.7 inches (170.1 mm) of wheel travel and twin shock absorbers provides agile handling and plush riding.
- // Dual front hydraulic disc brakes feature calipers with large, 34 mm pistons and wide brake-pad surface area for increased stopping power and outstanding durability.
- // Large, 25-inch CARLISLE tires with aggressive tread offer consistent traction in wet conditions, yet make for a quiet, smooth ride on hard-packed trails.
- // Lightweight and strong plastic skid plates, sturdy to withstand trail pounding, yet slippery to let obstacles slide below.

UTILITY/CONVENIENCE FEATURES

- // Dual 35W headlights (with high and low settings) are part of the distinctive KingQuad grille appearance. Bright taillight helps make the ATV visible in dark conditions.
- // Heavy-duty front and rear cargo racks let you take advantage of the ATV's superb load capabilities. Wrinkle paint finish on the racks and front bumper is durable and scratch resistant.
- // LCD instrumentation includes speedometer, odometer, trip meter, hour meter, clock, fuel gauge and indicators for reverse, neutral, oil and FI.
- // Automotive-style DC power outlet on front fender.
- // Winch-ready mounts and wire conduit make winch installation simple.
- // Large, 4.2 gallon (15.9 L) fuel tank provides outstanding riding range.
- // Full floorboards with integrated raised foot pegs provide protection.
- // A variety of Suzuki Genuine Accessories are available, including winches, windshield, front and rear bumpers, snowplow, aluminum skid pans, rack extensions, utility box and more.
- // 12-month limited warranty.
