Key Features

1. 493cm³ fuel-injected 4-valve engine engineered for robust output throughout the rpm range, along with strong top-end power.
2. Compact and lightweight electric power steering positioned high on the vehicle to help avoid water and debris, delivers lighter steering in a variety of conditions to help reduce rider fatigue. (LT-A500XP/XPZ only)
3. Fuel injection improves throttle response and fuel efficiency, while delivering power consistently and improving starting.
4. Efficient and functional fully automatic QuadMatic CVT (Continuously Variable Transmission), using a durable V-belt and centrifugal clutch.
5. Advanced engine-braking system helps the transmission control vehicle speed to minimize freewheel during descents.
6. Torque-sensing differential with three modes – 2WD, 4WD or differential-locked 4WD – easily selected with a handlebar-mounted button.
7. Fully independent suspension system - A-arm front and A-arm/I-beam rear - delivers superior riding comfort and versatile handling performance.

8. Shock absorbers at all four corners are adjustable for five different preload settings, providing maximum versatility for different loads.
9. Front dual hydraulic disc brakes and rear sealed oil-bathed multi-disc braking system deliver strong and consistent stopping performance.
10. 25-inch tires with tread and sidewall character specially designed for the machine, mounted on lightweight and sturdy aluminum rims.
11. Gate-style drive mode selector lever lets the rider easily and securely select between low, high, neutral or reverse setting.
12. Suzuki's exclusive T-shaped seat, designed for all-day comfort and easier body-weight transition during sporty trail rides.
13. Fuel tank positioned below the seat helps keep the machine's weight center low. The tank's ratcheting gas cap is easy to tighten.
14. Standard equipment including a tow hitch and a sealed 12V accessory outlet.
15. Two storage compartments: one easily accessible aft of the rider, and one with a spin-off top on the right front fender.
