# SUZUKI KINGQUAD 400FSi

**MSRP:** \$6,499 / \$6,899 (Camo)

For performance that rules, you can't beat the Suzuki KingQuad 400 lineup. The KingQuad 400FSi (Semi-automatic) offers an unrivaled combination of exciting sport performance and hard-working capabilities. The 2013 has Suzuki's class-leading fuel injection and all-new digital speedometers.

So whether you're tackling a tough job or a tough trail, you'll appreciate the impressive torque and remarkably wide powerband. It also lets you select two- or four-wheel drive operation quickly and conveniently, which gives it the versatility to handle rough conditions, daunting chores — or let you enjoy a backwoods getaway. Its aggressive styling also reflects its willingness to take on tough jobs.

KingQuad400FSi: the 400FSi 4x4 Semi-Automatic specializes in versatility. With its five-speed transmission and automatic clutch, it combines sporty performance and convenient operation. And since it's a KingQuad, you know you're in for an incredible combination of gutsy performance and lightweight agility.

New for 2013: Terra Green, and Flame Red and True Timber XD3 Camouflage color schemes.

## TOP 10 FEATURES

**The KingQuad 400FSi features a Suzuki fuel-injected 376cc four-stroke, four-valve engine.** Engine vibration is kept to a minimum with a maintenance free, gear driven counter balancer. Auto decompression makes for easy starting either electrically or with auxiliary recoil starter.

**Suzuki's class-leading Suzuki fuel injection system** contributes to smooth power output, especially in the mid-to-high range, as well as more consistent cold starts. The fuel injection system uses 3-D ignition maps for optimum ignition, targeting responsive yet environmentally efficient performance.

**Suzuki Advanced Cooling System (SACS™)** with factory-installed oil cooler and thermostat-controlled cooling fan helps cool the engine during hard work or under excessive load. SACS is designed into the exhaust area of the cylinder head and cylinder in conjunction with a standard cooling fan to reduce engine heat and maintain engine operating temperature.

**A five-speed transmission** with semi-automatic clutch and reverse allows the rider to select their gear position for maximum traction and fuel efficiency. The KingQuad 400FSi also boasts a class-leading high/ low selectable sub-transmission that offers versatile gear ratios for various tasks and riding conditions, such as plowing snow or pulling a heavy load in low mode, or open trail riding in the high mode.

**Selectable 4WD. Easy switch into 2WD using a handlebar-mounted lever** to engage the torque-sensing limited slip differential providing maximum traction and light steering effort when in 4WD mode. The KingQuad 400FSi shaft drive system is reliable, durable, and provides nearly maintenance-free operation.

**A torque-sensing limited-slip front differential** provides maximum traction and light steering effort when in 4WD mode.

**A front independent double-wishbone suspension design** offers smooth performance and remarkable ground clearance and allows 6.7 inches of wheel travel.

**A swingarm rear-suspension system** with 6.7 inches of wheel travel and class-exclusive twin shock absorbers provides agile handling and plush responsiveness.

**Dual front hydraulic disc brakes** feature calipers with a large piston diameter and maximum brake pad surface area for increased stopping power and outstanding durability.

**LCD digital Instrumentation** includes speedometer, odometer, tripmeter, hour meter, clock, fuel gauge and indicator lams for reverse gear, neutral, oil and FI.
