

**2013**

**QuadSport *Z*400**

# QuadSport **Z400**

**MSRP: \$7099**

The lightning-quick 2013 QuadSport Z400 is a versatile sport ATV loaded with class-leading Suzuki technology.

It features a compact & lightweight liquid-cooled 398cc 4-stroke, Dual Overhead Cam engine with Suzuki Fuel Injection – a class-leading design developed through Suzuki racing technology that gives it cleaner, quicker and stronger acceleration than ever. A lightweight chassis with dual front disc brakes, single rear disc brake, independent front suspension and fully-adjustable rear suspension gives it impressive performance and handling over tough trails and terrain.

The QuadSport Z400 is the ideal machine for exciting sport riding on the track, in the sand or in the woods.

New for 2013: The QuadSport Z400 is available in Solid Special White No. 2 and Champion Yellow No.2 / Solid Black.

## SUZUKI EDGE

**Compact & lightweight 398cc 4-stroke, single-cylinder, liquid-cooled Dual Overhead Cam engine** with counter-balancer tuned for tractable power over a wide RPM range and impressive performance on a wide variety of terrain.

**Suzuki fuel-injection system features a 36mm throttle body** and 12-hole injector that delivers the fuel/air mix in an efficient fine-mist spray pattern. Engine Control Unit uses a 16-bit CPU and a 96-kilobyte ROM unit. The system is programmed to obtain improved traction by selecting the optimum injection volume, injection timing and ignition timing based on throttle position, engine rpm, and other data monitored.

**Five-speed transmission with cable-operated clutch** includes an easy-to-use reverse gear system: Shifting into reverse is easily done by turning a shift knob mounted to the right side front fender. With the transmission in first gear, pull in the clutch lever, turn the reverse shift knob and press the shift lever down.

**Dry-sump lubrication system** allows a compact crankcase and minimal engine height for optimum engine placement - oil tank is frame-mounted in front of the exhaust head pipes.

**Large 170mm dual front disc brakes and single 220mm rear disc brake** provide outstanding stopping power. The front brake lever position adjustment mechanism is developed from Suzuki racing technology and is designed to make brake adjustments much easier.

**Long-travel, independent double A-arm front suspension** with fully adjustable, piggyback reservoir-style shock absorbers - provides 8.5 in. of wheel travel for excellent performance over rough terrain and trails.

**Linkage-type rear suspension** features fully adjustable, piggyback reservoir-style shock absorber with 9.1 in. of wheel travel, plus 10.4 in. of ground clearance for impressive handling over tough, challenging terrain.

**2.4 gallon fuel tank** provides ample fuel for long trail riding and features two mounting points for quick removal and simplified maintenance.

**Convenient electric start system** includes Start-In-Gear feature - electric start system and CDI ignition are powered by compact maintenance-free battery working together with a three-phrase charging system and a 200 watt output stator.

**Lightweight aluminum alloy wheels**, together with aggressive all terrain radial tires (F: 22 x 7-10, R: 20x10-9), helping reduce unsprung weight and provide rugged performance over tough, challenging terrain and trails.

SUZUKI EDGE							
MODEL NAME:	2013 Suzuki QuadSport Z400	SUZUKI EDGE	2013 Honda TRX400X	2013 Yamaha YFZ450	2013 Honda TRX450R	2012 Can-Am DS450	2013 Kawasaki KFX450R
MSRP:	\$7,099	The QuadSport Z400 is an incredible value offering the most complete sport ATV package in its class, including features like a liquid-cooled 398cc DOHC 4-stroke engine and Suzuki fuel injection, at a competitively-low MSRP, priced \$799 less than the Can-Am DS450 & Honda TRX400R and \$1200 less than the Kawasaki KFX450R	\$6,399	\$6,899	\$7,799	\$7,799	\$8,299
ENGINE							
Engine:	398cc liquid-cooled, 4-stroke, single cylinder, DOHC	The QuadSport Z400 features a powerful 398cc 4-Stroke, liquid-cooled DOHC engine with Suzuki Fuel Injection unlike the carbureted Yamaha YZF450 and air-cooled, SOHC Honda TRX400X, providing the QuadSport Z400 with exceptional power delivery, increased reliability and outstanding performance.	397cc air-cooled, 4-stroke, single-cylinder, SOHC	449cc liquid-cooled, 4-stroke, single-cylinder, DOHC	450cc liquid-cooled, 4-stroke, single-cylinder, SOHC	449cc liquid-cooled, 4-stroke, single-cylinder, DOHC	449cc liquid-cooled, 4-stroke, single-cylinder, DOHC
Bore Stroke:	90.0mm x 62.6mm	Oversquare bore and stroke dimensions provide the QuadSport Z400 with an optimal balance between horsepower and torque, allowing higher RPM operation – resulting in exceptional performance and acceleration.	85.0mm x 70.0mm	95.0mm x 63.4mm	96.mm x 62.0mm	97.0mm x 60.8mm	96.0mm x 62.1mm
Compression Ratio:	11.3:1	The QuadSport Z400 features an optimal 11.3:1 compression ratio for maximum performance and engine efficiency.	N/A	11.4:1	12.0:1	N/A	N/A
Fuel System:	Suzuki fuel injection, 37mm throttle body	The QuadSport Z400 features the class-leading Suzuki Fuel Injection system with 37mm throttle body – a feature you won’t find on carbureted models like the Yamaha YZF450, Honda TRX400X and TRX450R models. Giving the QuadSport Z400 excellent cold-starting, increased reliability and outstanding fuel efficiency.	Carburetor 38mm	Carburetor 42mm	Carburetor 40mm	EFI 46mm Throttle body	EFI 42mm Throttle body
Transmission:	5-speed forward with reverse	The QuadSport Z400’s 5-speed transmission with reverse gear, features optimal gear ratios for exceptional performance over a wide variety of terrain and riding conditions. Reverse gear is not a feature found on the Honda TRX450R, Yamaha YZF450 or Can-Am DS450 models.	5-speed with reverse	5-speed (no reverse)	5-speed (no reverse)	5-speed (no reverse)	5-speed with reverse
CHASSIS							
Brakes Front:	Dual Hydraulic Disc brakes, 170mm discs	The QuadSport Z400 features dual hydraulic front disc brakes with large 170mm discs that are 43mm larger than the Yamaha YFZ450 and 7mm larger than the KFX450R for excellent stopping power and performance.	Dual disc, 174mm discs	Dual disc, 127mm discs	Dual disc, 174mm	Dual disc; 182mm discs	Dual disc, 163mm discs
Brakes Rear:	Hydraulic disc brake; 220mm	The QuadSport Z400 features a lightweight hydraulic disc brake with a large 220mm disc that is 47mm larger than the Yamaha YFZ450 for outstanding performance and stopping power.	Single 220mm disc	Single 173mm disc	Single 190mm disc	Single 198mm disc	Single 200mm disc
Curb Weight:	425 lbs (193 kg)	The QuadSport Z400 boasts more class-leading features than the competition, like a lightweight high-tensile steel-alloy tube frame and subframe, liquid-cooling and Suzuki fuel injection.	408 lbs.	385 lbs.	388 lbs.	349 lbs (Dry weight)	392.5 lbs
Final Drive:	Chain , RK 520SMOZ10S, 96 links	The QuadSport Z400 features a high-quality RK brand 96-link chain final drive that delivers maximum power with excellent reliability.	Chain	Chain	Chain	Chain	Chain
