Features & Specifications 2016 DR-Z400S

Key Features

- Versatile and strong 398cc, DOHC, liquid-cooled, dry-sump engine with push-button starting.
- Outstanding motorcycle that is the gold standard for Dual Sport riding.
- Fully adjustable, off-road capable suspension with strong spoke wheels featuring aluminum rims.
- · Slim and trim chassis for easy maneuvering on or off-road.

Engine Features

- A compact design, 398cc, DOHC, liquid-cooled, dry-sump engine produces strong low-RPM power. Its compact 4-valve cylinder head features large 36mm intake valves and 29mm exhaust valves help produce broad, tractable power and torque ready for any terrain.
- Suzuki Composite Electrochemical Materials (SCEM) cylinder is durable, lightweight and provides superior heat transfer.
- Digitally mapped DC-CDI system monitors throttle position/engine rpm and adjusts ignition timing to maintain efficient combustion.
- Forged aluminum piston is 10 percent lighter than a cast piston and receives additional oil-cooling through a crankcase oil jet.
- A Mikuni™ 36mm carburetor is fed by a 6-liter air box to achieve smooth throttle response. The left side cover has quick-release fasteners for easy access to the air filter.
- · Magnesium-alloy clutch, magneto and cam covers contribute to the bike's low weight.
- A compact 5-speed transmission utilizes a cable-operated clutch with separate outer cover for simplified clutch maintenance.

Chassis Features

- A narrow frame combines thin chrome-moly steel tubes for exceptional torsional rigidity with minimal weight. The backbone tube, front down tube and steering head gussets form the dry-sump engine oil tank. A bolt-on aluminum sub-frame helps reduce weight and simplify maintenance.
- Long travel (11.3 in), 49mm cartridge-style forks with protective rubber boots, feature adjustable compression/rebound damping and adjustable spring preload for smooth performance on all types of on/off-road terrain.
- Rear shock absorber features 11.6 in of travel, compression damping/preload adjustments and connects to a lightweight aluminum swingarm through a progressive linkage system.
- Sure stopping power is supplied by a 250mm front disc with a dual-piston caliper and a 220mm rear disc brake with a single-piston caliper.

Electrical Features

- Electric start system provides convenient operation and features a lightweight starter motor and a compact 6.5 amp maintenance-free battery.
- Compact digital instrument cluster with speedometer, odometer, and twin-trip meters with addition/subtraction capability, clock, timer and stopwatch functions.
- On-road legal lighting with bright 60/55 watt H4 halogen headlight, compact tail/stoplight, light-weight, rubber-mounted turn signals and horn.

Additional Features

- A pouch on the rear fender carries the tool kit and owner's manual.
- Special design mirrors rotate to avoid damage in case of impact.
- Genuine Suzuki Accessories include a low profile seat, cargo rack, hand guard set and more.
- 12-month limited warranty
